

Agreement of Co-operation between CNR/IRPI and MAS for the realization of the project

“Drinkable water and renewable energy in Bogd (Mongolia) financed by Regione Veneto-CNR/IRPI Padova

Stating that Regione Veneto and CNR/IRPI have signed in December 2003 a convention pursuing

“the common object of sustaining the improvement of the life conditions of the nomadic people around Bogd *somon* (Bayankhongor *aimag*, Mongolia) and meanwhile recovering the local cultural and socio-economic heritage through, among other things, the realization of infrastructures for water and energy supply in Bogd with restoration of the MAS logistic base (future Italy-Mongolia Centre)”;

CNR/IRPI and MAS with reference to this premise agree as follows:

- CNR/IRPI entrusts MAS with the realization of the project called “Drinkable water and renewable energy in Bogd (Mongolia), based on the restoration of the MAS logistic base in Bogd, drilling of a deep well for drinkable water equipped with submersible pump and generator and installation of solar energy plants;
- MAS warrants the realization of the above mentioned project, as detailed in the enclosed Pro-forma Invoice, which forms integrant part of the present agreement.

MAS will perform all items in the best way and with utmost care and give guarantee of a correct execution of the works. These will be supervised by CNR/IRPI, followed and checked by Honorary Consul of Mongolia, Prof. Aldo Colleoni, acting as reliable expert appointed by CNR/IRPI;

- start of works, coinciding with payment of the 1st account (end of February 2004), is subordinated to the credit availability of Regione Veneto (beginning of February).

Done at Mongolian Embassy in Moscow on date: January 18th 2004
